

10-Ball MicroPool

Installation guide

1. Requirements

- 10-Ball MicroPool is compatible with Series 60 phones like Nokia 7650, Nokia 3600, Nokia 3650, Nokia 3660, Nokia 6600, Nokia 7610, Nokia N-Gage, etc.
- The game is provided as a 211KB SIS file
- After installation, the game takes 422 KB.

2. Installation

Two version of the game is available:

- Demo version: freely distributable package that can be freely distributed. Functionality is limited. It can be used for evaluation.
- Full version: No limitation in functionality. Needs to be registered to unlock and must not be distributed.

2.1 Install using PC suite

Step 1.: Connect your phone to your PC using Infrared or Bluetooth (refer to your phone's manual for details)

Step 2.: Run "10_Ball_MicroPool_S60_V30_DEMO.sis" or "10_Ball_MicroPool_S60_V30.sis" on your PC and follow the instructions.

2.2 Install via sending the SIS file to the phone's Inbox

Step 1.: Send "10_Ball_MicroPool_S60_V30_DEMO.sis" or "10_Ball_MicroPool_S60_V30.sis" to your phone via Infrared or Bluetooth connection. You will have it as a new item in your phone's Inbox

Step 2.: Open the message and follow the instructions.

Step 3.: After installation, you may want to delete the SIS package from your inbox to conserve phone memory.

3. Registration

The game is fully functional for 5 days after installation is made. To use 10-Ball Micropool any further, you must register it.

After you purchased the game, you receive an unlock code via e-mail, based on your phone's IMEI number. Select "Register" menu option in the game and enter the unlock code to remove limitations.

Your IMEI number will be requested while making the purchase. Please note that you are allowed to get unlock code only once, based on the IMEI you gave.

4. Removing 10-Ball MicroPool

Open Manager application, then select 10-Ball MicroPool, press Options and Remove, then follow instructions

5. Troubleshooting
